

Rubberised Gel Foam Mat with Holes #470

Anti-Fatigue Mat – 17mm thick

Features and Benefits

Rubberised Gel Foam Mats with holes are the softest and most comfortable anti-fatigue mats available. Their superior cushioning effect makes them ideal for standing on for extended periods.

The closed cell construction, holes throughout the mat and antibacterial additive makes the rubberised Gel Foam Mat suitable for wet areas such as kitchens and bathrooms, as well as dry areas.

This mat has an embossed surface which increases the anti-slip properties.
